CORRIDOR TRAFFIC & POWER BLOCK SANCTION BULLETIN — NDLS-CNB

Operational Schedule Window: 21-Sep-2026 to 27-Sep-2026 (7-Day Comprehensive Corridor Master Schedule)

Corridor: NDLS-CNB	Period: 21-Sep to 27-Sep-2026	Total Sanctions: 59 blocks	Total Possession: 180.00 hrs*	Co-Possessions: 18 blocks
--------------------	-------------------------------	----------------------------	-------------------------------	---------------------------

1. Approved Possession & Track Work Schedule (Complete 59 Blocks Enumerated)

#	Block Code & Bundle	Dept	Line & KM Span	Window & Date (IST)	Gang & Machinery	25kV Cut	Caution Order
1	BLK-NDLS-0013 [BUNDLE-07] Primary Block	TRD	DOWN KM 146.5-150.6	20-Sep 19:00-22:00 (3.0h)	GANG-TRD-OHE-03 OMS-NR-21 OHE Measurement Special	YES 25kV Cut	NORMAL No TSR
2	BLK-NDLS-0014 [BUNDLE-07] Shadow w/ BLK-NDLS-0013	SNT	UP KM 146.5-150.6	20-Sep 19:00-22:00 (3.0h)	GANG-SNT-SIG-01 Axle Counter Test Set	NO	NORMAL No TSR

T O T A L	59 APPROVED	-	NDLS-CNB	180.0h	All Gangs Verified	23 Cuts	18 Bundled

***Operational & Regulatory Methodological Disclosures:**

1. Total Possession Hours Calculation: The **180.00 hrs** figure represents the cumulative arithmetic sum of all 59 approved individual block window durations. Net physical corridor track closure time is **152.50 hrs**, deduplicating 27.50 hrs of parallel possession overlap achieved by co-locating TRD/ENG/S&T; works under joint co-possession permits.

2. Cross-Track Co-Possession Compatibility: Co-possession spanning UP and DOWN tracks (e.g., BUNDLE-07, BUNDLE-02) represent joint multi-track possessions under Indian Railways G&SR; 15.06 and ACTM Vol II. When 25kV AC traction power isolation (OHE Cut) or section electronic interlocking testing de-energizes/isolates the entire elementary section, simultaneous work on adjacent tracks is authorized under unified safety protection.

3. Safety Protection & Caution Orders: All OHE Cut = YES possessions mandate formal Power Isolation Permits (PTW) prior to track entry. Caution Order = NORMAL indicates track is certified fit for normal sectional speed (130 km/h) upon handback without TSR.

2. Operational Authorization & Sign-Off

Section Controller (COA) Status: SIMULATION APPROVAL (PS 26027) AI Automated Planning Engine • Conflict-Free Verified Audit Hash: SHA256-IR-SIL4-DEMO-2026-W39 Timestamp: 27-Sep-2026 14:22:46 IST	Sr. Divisional Operations Manager (Sr. DOM) Status: DEMO BULLETIN — APPROVED FOR SIMULATION Formal Field Execution Sanction: <i>PENDING PHYSICAL ISSUANCE</i> Designation: Sr. DOM / Delhi Division / Northern Railway Note: For Academic / Hackathon Demonstration Only
